

Splixler is one of those adaptors you'll wonder how you ever did without! Splitting and gender changing 3-pin XLR (mic) cables has never been easier with this rugged and compact, yet low cost, AV accessory. Being entirely passive and engineered for the demanding AV rental environment using PCM interconnects (no loose wires), Splixler can be used with audio and signal cabling alike. Whether you wish to split or extend cue lights, count down timers or audio cabling (such as inter-com systems), keeping a few Splixlers in the tool kit could save the day in so many ways.

Main Features

- 2x Male and 2x Female 3-pin XLR connectors
- Provides for 1 input and up to 3 outputs
- Male-male or female-female gender changes
- PCB design and rugged enclosure for optimum reliability.

3 Year Limited Factory Warranty

Note XLR cables and not included as standard.
